RE: Kelly Woo – Letter of Recommendation

To Whom It May Concern:

It has been a pleasure getting to know her over the course of 2018 while working together on producing TV programs. From YTV, we initially reached out to her about hosting a short TV program because she has been a longstanding writer for The Korea Times. Having read her articles published in The Korea Times, the content has proved to be an invaluable resource for the Korean-American community. She has distinguished herself as an experienced leader as seen in all her many accomplishments and extensive background in financial services.

As we began working together, it was incredibly noticeable that she has a deep desire to educate and give back to the community. Even with her busy schedule, Kelly always offers to provide free educational seminars for different associations in the community and this shows her passion to educate the general public without immediate return in mind. She believes that joyful giving always returns in an even greater reward in the long run and it seems as though her career has been blessed through such generosity first.

It has been a great advantage and delight working with her and having her as a financial resource provider as she frequently presented financial advice for the TV news programs when needed. Unreserved, I support Kelly's nomination for the Women to Watch Award. It would be a great opportunity for her to be able to further her reach and continue impacting larger communities as a leader.

Eric Song
